

Establishing priorities

Which of the following would you consider to be a *high priority* for development and which are currently *less important*?

- Designing effective inquiry tasks
- Using tasks to encourage inquiry
- Asking questions that encourage student thinking
- Using problem-solving tasks with students
- Using collaborative work with students
- Using peer assessment
- Leading effective whole class discussions
- Making connections to the world of work
- Assessing inquiry and problem-solving skills
- Planning lessons for inquiry based learning
